Setting up Windows Vista for Netlink DSL

Click on the "Start" button Click on "Connect to"

Click on "Setup a connection or network"

6	😨 Conr	nect to a network		
	Select a	a network to conne	ect to	
	Sho	All	•	45
	2	VistaTest	Security-enabled network	llee.
	2	Periodik Labs Guest	Security-enabled network	lle.
	2	Periodik	Security-enabled network	للاده
	<u>Set up a c</u> Open Net	connection or network twork and Sharing Cente	<u>र</u>	
				Connect Cancel

Go ahead and choose "Connect to the Internet" and then press next

Then choose "Broadband (PPPoE)"

Now type in your username and password, for the Connection Name you can type in "Netlink" and press "Connect"

		- • •
Genect to the Inter	net	
Type the informatio	n from your Internet service prov	vider (ISP)
<u>U</u> ser name:	username	
Password:	••••••	
	Show characters	
	Remember this password	
Connection <u>n</u> ame:	Broadband Connection	
Allow other peopl	e to use this connection	
This option allows	s anyone with access to this computer to us	e this connection.
I don't have an ISP		
		Connect Cancel

Now click "Close." When you want to connect, all you do is click on the "Start" button, click "Connect to," click on "Netlink," and click "Connect." Once that says it is connected, you can open up Internet Explorer and browse the Internet
